SUBJECT INDEX FOR VOLUME 20

A

Adaptive management
  to improve environmental impact assessment, 97
Agenda 21
  sustainable communities in Germany, 381
Agro-ecological indicators
  used to generate cropping classification system, 227
Air pollution
  from electricity generation, 137
Arable farming systems
  evaluating impacts on environment, 227

B

Belgium
  implementation of strategic environmental assessment, 65
Brazil
  environmental impact assessment procedures and practices, 191
Buildings and building materials
  assessing emissions in indoor air, 241

C

Canada
  sustainable forest management, 481
Change
  rethinking of urban infrastructure, 403
City planning
  integrated planning tool, 265
Collaborative problem solving
  assessment of regional waste management strategy, 681
Community sustainability indicators
  model for development, 381
Context-oriented planning approach
  assessing sustainability of small wastewater systems, 347
COST (Co-operation in the Field of Scientific and Technical Research), 261
Credibility (Viewpoint), 427
Criteria
  for sustainability in storm runoff project, 413
Criteria prioritization
  sustainability of urban water and wastewater systems, 311
Cropping systems
  evaluating impacts on environment, 227
Cultural resources
  defined for U.S. environmental impact assessment, 5
Cultural theory
  used in human health damage assessment, 159
Cumulative effects
  considered in sustainability appraisal, 31

D

Decision-making
  in life cycle assessment, 113
Denmark
  sustainability assessment method for small wastewater systems, 347
  upgrading municipal sewage systems, 403
Draft environmental impact statement
  ratings reviewed, 557

E

EcoBalance model
  for assessing ecological impacts of residential planning and construction, 373
Ecological-economic systems
  measurement of response, 125
Eco-systemic approach
  urban and provincial sustainable development in Italy, 299
Electricity industry
  air pollution, 137
  ionising radiation, 159
Endangered species (Iberian lynx)
  evaluation of highway over habitat of, 665
Environmental appraisal
  sustainability, 31
Environmental assessment of policies
  sustainability assessment of infrastructure development, 393

Landscape ecological approach
  use with environmental impact assessment, 665
Lebanon
  environmental impact assessment in development, 579
Life cycle assessment
  human health damage due to ionising radiation, 159
  methodology and applications, 113
  tool in environmental impact assessment, 435
  usefulness in addressing indoor climate issues, 241
Lynx pardina L. (Iberian lynx)
  proposed highway impact on, 665

M

Mathematical modeling
  urban sustainability, 277
Mine drainage
  quantifying impacts, 85

N

Nature conservation
  evaluation of highway over habitat of endangered species, 665
Norway
  evaluating sustainability criteria in storm runoff project, 413
  method to evaluate sustainability of urban green structure, 359
Nuclear power
  assessing human health damage, 159

P

Perturbations
  ecological-economic systems, 125
Pesticides
  regulation of (Viewpoint), 505
Planning procedures
  implementing strategic environmental assessment in Flanders, 65
Planning theory
  overviewed and related to environmental impact assessment, 607
Policy and planning tools
  strategic environmental assessment, 647

Portugal
use of landscape ecology in locating highway, 665
Post-development auditing
methods used for predicting zone of visual influence, 537
Predictive technique evaluation
zone of visual influence, 537
Project anticipation
impact on community with proposed tourism development project, 513
Public participation
assessment of regional waste management strategy, 681
in environmental impact assessment development in Lebanon, 579
improving in the environmental impact assessment procedure, 457
mine water environmental impact assessment and remediation, 85

Q

Quantitative assessment
adverse health impacts from electricity generation, 137
Quantitative methods
forest simulation models, 481
impact of indoor environment on human health, 241
impacts of agricultural practices on environment, 227
response of ecological-economic systems to perturbations, 125
